

## Measurement Lab [Transducer Lab] - Capacitance Measurement Trainer Module

[www.unitechscales.com](http://www.unitechscales.com)

Capacitance Trainer comprises of parallel plate/angular capacitor with dielectric medium air as sensor, mounted on the base plate with scale for displacement. Digital indicator is provided to read the change in capacitance in terms of displacement

Model	: UITM-110 [Linear Displacement] : UITM-111 [Angular Displacement]
Capacitance Sensor	: Linear-Parallel plate capacitor : Angular-Gang condensor.
Displacement	: Linear-50mm : Angular-0-90°
Indicator	: 3½ digit to read $\pm 1999$ counts.
Power Supply	: 230V $\pm 10\%$ @50 Hz
