

UNITECH SCALES AND MEASUREMENTS PVT. LTD.

## Measurement Lab [Transducer Lab] - Resistance Measurement Trainer

[www.unitechscales.com](http://www.unitechscales.com)

Resistance Measurement Trainer comprises of potentiometer to vary the resistance with respect to the angular displacement with digital indicator to read the resistance change in the potentiometer.

Model	: UITM-091[Linear displacement]
Model	: UITM-092[Angular Displacement]
Resistance Source	: Linear Variable resistor 10K ohm single turn potentiometer
Displacement	: UITM-091-0-25mm : UITM-092-0-270°
Indicator	: 3½ digit to read ±1999 counts.
Resolution	: 1mm 1°
Power Supply	: 2.3V ±10% @50 Hz
